We've been
**BUILDING THE BEST
SINCE '76**

THE NEW BD7600 BOX DRILL

We introduced our first box drill in 1976 and it revolutionized the ag industry. Today, we're proud to unveil the next generation of Great Plains box drills — the new BD7600. The BD7600 features a new split-box configuration and a larger capacity, with newly designed feeder cups that handle all types of seed and fertilizer. With optimum flexibility over terraces, the BD7600 offers producers legendary durability, precision and performance.
